Our Cash Cancer Plan is All About Your Freedom to Choose

"It won't happen to me."

Did you know cancer can strike anyone at anytime regardless of age or circumstances? Often without prior warning or symptoms. You probably know someone who has had cancer.

Here are the Facts:

- 40% of people will be diagnosed with cancer at some point during their lifetime.¹
- Over 2 million new cancer cases are expected to be diagnosed in the U.S. each year.²
- Almost two-thirds of bankruptcies are caused by medical debt.³

More people are surviving cancer than ever before because of modern medical technology and treatments. Care can be expensive, and surviving a cancer diagnosis can create a serious financial hardship.

UA's First Diagnosis Cash Benefit Cancer Policy can help.

Here's how it works: the first time a covered person is diagnosed with a covered cancer, the policy pays up to \$50,000 cash, one time, to use as you see fit[†]. That's it!
